

Did you know there are around 270 species of bee in the UK?

... And that they are responsible for around one third of the foods that we eat?

But bee populations continue to struggle. Which is where the **Bee Friendly Trust** comes in, transforming neglected land at railway stations into forage-rich, floral habitats, with educational artworks and innovative bug hotels. These platform-based wildlife gardens form nationwide pollinator pathways, where bees and many other creatures can thrive.

Every donation made to the **Bee Friendly Trust** helps to transform even more areas of abandoned land into bee-friendly wildlife havens.

To find out more, visit beefriendlytrust.org or scan the QR code below, to donate.
